MILENG COE Key Events 2022

1st MILENG WG  
6th MILENG ADC  
29th MILENG COE SC  
MTT (POL)  
22nd MILENG WG (GRC)  
MTT (LVA) (TBC)  
WWGC Training  
30th MILENG COE SC (POL)  
NSJ EC 2022 (POL)  
MTT (NOR)  
IES 2022  
Industry Day

MILENG COE Courses 2022

The complete Event and Course Calendar can be found on our website and the Knowledge Portal. For access simply register to the MILENG COE Knowledge Portal through the website www.milengcoe.org

NATO Operational Military Engineering Course (NOMEC)  
ETOC Code: MEG-ME-3693  
07 – 11 Mar 22

NATO Tactical Military Engineering Course (NTMEC)  
ETOC Code: MEG-ME-31970  
02 – 06 May 22

NATO Military Environmental Protection Practices and Procedures Course (NMEPPPC)  
ETOC Code: MEG-ME-32027  
25 – 29 Apr 22

NATO Infrastructure Assessment in Support of Planning Course (NIASPC)  
ETOC Code: MEG-ME-45588  
20 – 24 Jun 22

Military Engineering Multinational Advisory Course (MEMAC)  
ETOC Code: MEG-ME-2694  
21 – 25 Mar 22

Military Engineering Multinational Basic Course (MEMBC)  
ETOC Code: MEG-ME-2696  
21 – 25 Feb 22

Bridge Assessment Course (BAC)  
ETOC Code: MEG-ME-2696  
16 – 20 May 22

Introduction to Military Engineering (NATO Approved)  
Military Search Planning (NATO Approved)  
Mobility Staff Awareness & Planning

NATO Accredited Education and Training Facility

“Interoperability is a question of attitude”
NOMEC is a course designed to provide a working knowledge regarding the roles, responsibilities, and staffing procedures of MILENG staff elements in order to prepare participants for NATO assignments at the Operational and Strategic levels.

Example Topics include: MILENG Doctrine, MILENG Tasks and Responsibilities at different levels of NATO HQs, MILENG contribution to Operations Planning Process.

Target audience: MILENG Staff Officers and NCOs (OR-7 and up), who will serve in a military engineering related post in a NATO Operational HQ (ACO, ACT, JFCs)

2 Courses per year/24 Students per course

NTMEC is a course designed to educate national MILENG staff within NATO Tactical Headquarters, (Component Commands including the NATO NRDCs), to be able to fully function at the NATO Tactical Level.

Example Topics include: NATO Doctrine, NATO Operations, Operations Planning Process, MILENG input to CIED, Route Clearance concept and planning considerations.

Target audience: MILENG Staff Officers and NCOs (OR-7 and up) who will serve in a military engineering related post in a NATO Tactical HQ (Corps, NFS, NFIUs).

2 Courses per year/24 Students per course

MEMAC is a course designed to educate MILENG staff operating at the all arms Brigade and Division Level (normally Engineer Battalion-Brigade personnel) on how to advise the commander and staffs. In addition students should acquire suitable knowledge of Military Engineering (MILENG) interoperability and NATO MILENG Doctrine relevant to this level.

Example Topics include: NATO Structure and Doctrine overview, Gap Crossing, NATO Orders, Force Protection, Support to C-IED, Route Clearance, Military Search.

Target audience: MILENG Staff Officers and NCOs (OR-8 – OF-3) working at the Battalion and Brigade level.

2 Courses per year/24 Students per course

MEMBC is an awareness course designed to educate engineers up to Coy level leaders on MILENG interoperability, operating in a NATO/Multinational environment, and NATO MILENG Doctrine relevant to this level.

Example topics include: NATO Structure and Doctrine overview, Base Camp Planning, Military Load Classification, Area/Route Denaial, and Airfield Damage Repair.

Target audience: MILENG Staff Officers and NCOs (OR-6 – OF-2) working at the Platoon or Company level.

2 Courses per year/24 Students per course

This course is designed to familiarize the student with the knowledge and skills to integrate NATO-led military operations with NATO Environmental Protection (EP) requirements in accordance with NATO STANAGs and policies.

Example topics include: Demonstrating EP standards, compliance and risk assessment requirements during operations, explaining best practices in conducting environmental studies.

Target audience: Military Officer (OF-1 through OF-4), NCOs (OR-6 and up), and civilian equivalent who will be assigned to a post that fulfills responsibilities in support of environmental protection.

1 Course per year/24 Students per course

This course provides a comprehensive understanding of infrastructure and the role it plays in the Operations Planning Process in order to enable the students to conduct standardized infrastructure assessments and produce related products. The target audience is primarily MILENG Staff Officers (OF-2 up to OF-4) and secondarily Staff Officers and Senior NCOs (OR-7 and above) from all functions, who are assigned or selected for assignment to NCS or NFS in a position related to infrastructure assessment.

1 Course per year/24 Students per course

The purpose of this 5 days course is to train the key leader engineers in subjects related to bridge reconnaissance, bridge assessment and reporting procedures in accordance with STANAG 2021 and based on the methods and principles for bridge assessment resulted from the “NATO Interoperable Bridge Classification Project” – led by MILENG COE and sponsored by NATO HQ.

2 Courses per year/24 Students per course
